### GNARALOO

Gnaraloo Custom Joinery and Furniture Pty Ltd was established in February 1993.

The name "Gnaraloo" is named after a sheep station in Western Australia at the start of the Ningaloo Reef.

The company was started as an add on business to our building and construction company.

We still supply and install detailed joinery items into our building projects' however' Gnaraloo has established its own core base of clients ranging from Corporate and Government, Builders, Architects through to the general public.

Our Joinery Manager and Designer David Hay has excellent and varied skills that have come from his time in French Polishing, Automotive and Industrial spray painting, detailed Furniture and Joinery manufacturing.

Adding to this, your project will run smoothly with excellent overall project management skills and Gnaraloo's long term employed team of quality tradesmen. Guarantying first class workmanship and product each and everytime.

### SERVICES PROVIDED

**DESIGN:** from concept ideas through to detailed drawings, whether ultra contemporary or traditional, Gnaraloo will create the desired environment for you. The company enjoys a successful and respected niche in detailed joinery and fitout projects.

**ESTIMATING AND COST CONTROL:** cost control and estimating are critical therefore our estimating services are vital in establishing a solid foundation from which to plan and fund your project.

**CONSTRUCTION:** Gnaraloo seeks total client satisfaction, mindful of time and cost parameters, before, during and at projects end.

**MANAGEMENT:** Our delivery systems are varied to suit each client and project as well as scope of works. They include, project management, the position of head contractor, design and construction services and can if needed extend to include the design and installation of electrical, data, and security systems.

The provision of thorough project management services and project leadership produces business solutions and quality environments for clients.

Gnaraloo's team thrives on achieving a common goal with its clients, maintaining a constant awareness of its responsibility to meet the projects requirements.

In short results are achieved by:

- Developing a thorough understanding of the project and client requirements.
- Ensuring all project teams are motivated towards the same result.
